REMARKS/ARGUMENTS

1. Amendments to the specification:

Paragraph 0014 of the specification has been amended to correct informalities. The specification now correctly corresponds to Figure 1, and uses the label "software application program 1" for the software application program 4 instead of the label "software application data 1". No new matter has been added through the amendments, and acceptance of the amended specification is respectfully requested.

2. Rejection of claims 1, 3-6, and 10 under 35 U.S.C. 102(b):

10 Claims 1, 3-6, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Colligan et al. (US 6,298,443).

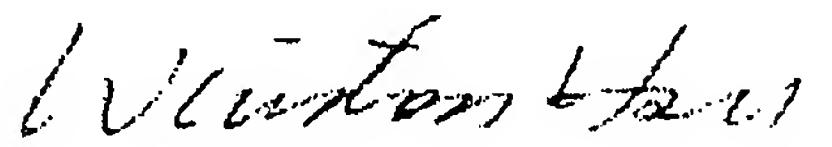

**Response:**

15 Claim 1 has been amended to overcome this rejection. Claim 1 now contains the limitations of original claim 2. Claim 2 had been indicated as allowable if rewritten in independent form including all of the limitations of the base claim. As a result, claim 2 has subsequently been cancelled. Reconsideration of claims 1 and 3-10 is therefore respectfully requested.

20 Since all claims are now in allowable form, the applicant respectfully requests that a timely Notice of Allowance be issued in this case.
